

JOIN HORIZONTEK'S CLOUD REVOLUTION

Pain-free migration might sound like a fantasy, but when you take advantage of HorizonTek's seamless cloud-based migration path using SnapMirror target volumes and licenses, a worry-free and painless NetApp® 7-Mode migration becomes a reality.

DEEP CONTROL

If you want to command your own cloud, you're in the right place. Dedicated virtualization management consoles put you firmly in control of hybrid and private cloud management, from high level customization and resource allocation all the way down to the nitty gritty details. In other words, when it comes to cloud computing, we put you right back where you belong: in the driver's seat.

BROAD CUSTOMIZATION

Commitment issues? We get it. HorizonTek won't lock you into anything. Want to change a technology vendor or hypervisor tomorrow? Go right ahead. Need to customize your cloud environment? Be our guest. With HorizonTek you're always free to choose the vendors, technologies, and customization options that work best for you. Certified solution specialists are here to help whenever you need them.

SEAMLESS CONNECTIVITY

Our plug-and-play Layer 2 Direct Connect network allows you to use your existing IP subnets, vLAN topology, firewalls, and VPN architectures. Just plug in your network as it is. Simple? Yes. Compromising? Not a bit. In fact, HorizonTek lets you seamlessly interconnect all private, public, and on-premise cloud resources with your existing global network. No time-consuming redesigns required.

CELEBRATING CONTROL FREAKS EVERYWHERE

Take control of your NetApp environment. HorizonTek Transition Swing Space removes the barriers to Clustered Data ONTAP migration, so you can leverage all of the advantages this platform has to offer. Our NetApp-sanctioned temporary swing space provides:

WHAT DOES A CLOUD REVOLUTION LOOK LIKE?

Imagine **you** as supreme cloud commander in chief. When you join the Faction Cloud revolution, you'll know exactly how it feels to run the show. Not only will you have one of the world's largest aggregations of compute, storage, and network resources at your disposal, you'll have all the control, flexibility, and connectivity you need to make your cloud behave exactly the way you want it to. No compromise. No exception.

Now you are in charge

- » **Deep access.** Receive the highest degree of control and deepest access with dedicated virtualization management consoles. Instantly provision storage and scale resources as you need them.
- » **Dedicated resources.** Superior performance is assured with dedicated compute, storage, and network resources. No more noisy neighbors.
- » **Flexibility** to choose cloud type and risk profile.
- » **Modular, mix-and-match solutions** customized to suit your needs.
- » **Cloud nodes in eight geographies** across the United States and in Europe to support public, private, hybrid cloud and disaster recovery solutions.
- » **Technology-agnostic platform.** No lock-in to any one vendor or technology.
- » **100% SLA** money-back guarantee. Who wouldn't want that?
- » **Simple private network pathways via layer 2** onto any Faction cloud location. Bring your network 'as-is'.
- » **Seamless interconnections** among all resources. Use your existing carrier for one global network.

ABOUT FACTION

	COMPANY STATISTICS	Well funded and profitable with a continual history of growth and success	<ul style="list-style-type: none"> » Founded in 2006 » Headquartered in Denver, Colorado » Well funded and privately held with 400% growth over the past 3 years
	SERVICES	Each Faction Bloc is customizable from top to bottom	<ul style="list-style-type: none"> » Faction Cloud – Start with a solid core of compute, storage and network resources, then build it out with the exact components you need to make our cloud your own » Faction Cloud Blocs – Customize with private cloud features, protected storage, and reservation models » Faction Market Place – Purchase additional cloud componentry from Faction-certified partners. Managed services, software, connectivity, and more » Faction Advanced Solutions Group – Get hands-on engineering for bare metal solutions, recalibrating workloads for the cloud, complex hybrid implementations, and InterCloud support
	OPERATIONS	Aggregated performance without capital investment	<ul style="list-style-type: none"> » 100 % availability SLA » 24/7 Operations » Type II SSAE 16 SOC 2 and HIPAA compliant, and PCI capable operations » We can build single virtual machines with 1TB RAM, 32 cores, and 100,000 IOPS for the most demanding workloads.
	TECHNOLOGY PARTNERSHIPS	Our technology partners represent best of breed in their respective industries	<ul style="list-style-type: none"> » VMware VCloud Powered Service Provider » Top 15 NetApp Service Provider » Cisco-Powered CMSP-certified Provider » Brocade VDX Switches and NetIron Routers
	ACCOLADES	2014 IaaS Provider of the Year	<ul style="list-style-type: none"> » IaaS Provider of the Year 2014, Business Intelligence Group » Cloud Product of the Year 2014 – White Label Cloud, TMCnet » Top 20 Service Providers, 2014 Data Center 100, CRN » Ranked #5 on CRN's 2013 Fast Growth 150 list » Top 100 Cloud Services Providers, 2013 Talkin'Cloud » Top 25 Cloud Service Providers' Performance, 2013 Compuware
